IAML-L, report 2015

As of Monday, 25 May 2015, IAML-L had 691 subscribers, an increase of 83 subscribers since July 2014.

The subscription increase began just after last year's meeting, with largest increases occurring since January 2015.

The Lyris software platform remains stable: Some 294,000 messages were mailed in the past twelve months and the success rate continues to hover at or above 99% (undelivered messages can be traced to expired/changed e-mail addresses). I renewed IAML-L in mid-May 2015. This is an annual event, and allows Cornell to confirm that hosted lists still are active.

Updated IAML-L instructions have been posted to the IAML web page, in both English and German. Many thanks to Pia Shekhter and Jürgen Diet for the German translation, and to Jennifer Ward for assistance in formatting the table of commands available to subscribers. A French translation is being completed and will be added as soon as it is available.

I am glad to be part of providing this service to the IAML community : IAML-L requires little maintenance, and I spend less than an hour per month on the list.

Bonna J. Boettcher

Listowner, IAML-L
