Austria, report 2005

General information

The Austrian national branch of IAML was founded in 2002. During this time we have had an increase of membership from 12 to 22 members. In 2004 the IAML Austria website was established (www.iaml.at ([link is external](#))). It contains the constitution and offers information on the goals of IAML Austria, on the officers, on the members and on actual meetings. Furthermore, it contains the minutes of the last meeting; for our national branch does not produce an own newsletter, these minutes, which include current information from the member libraries, replaces the function of a newsletter.

Meetings

Since the IAML conference in Oslo last year the Austrian National Branch of IAML had three meetings: two information meetings and the general assembly.
