Jean-Louis Villeval, public lecture, filled and available on the university's web TV station

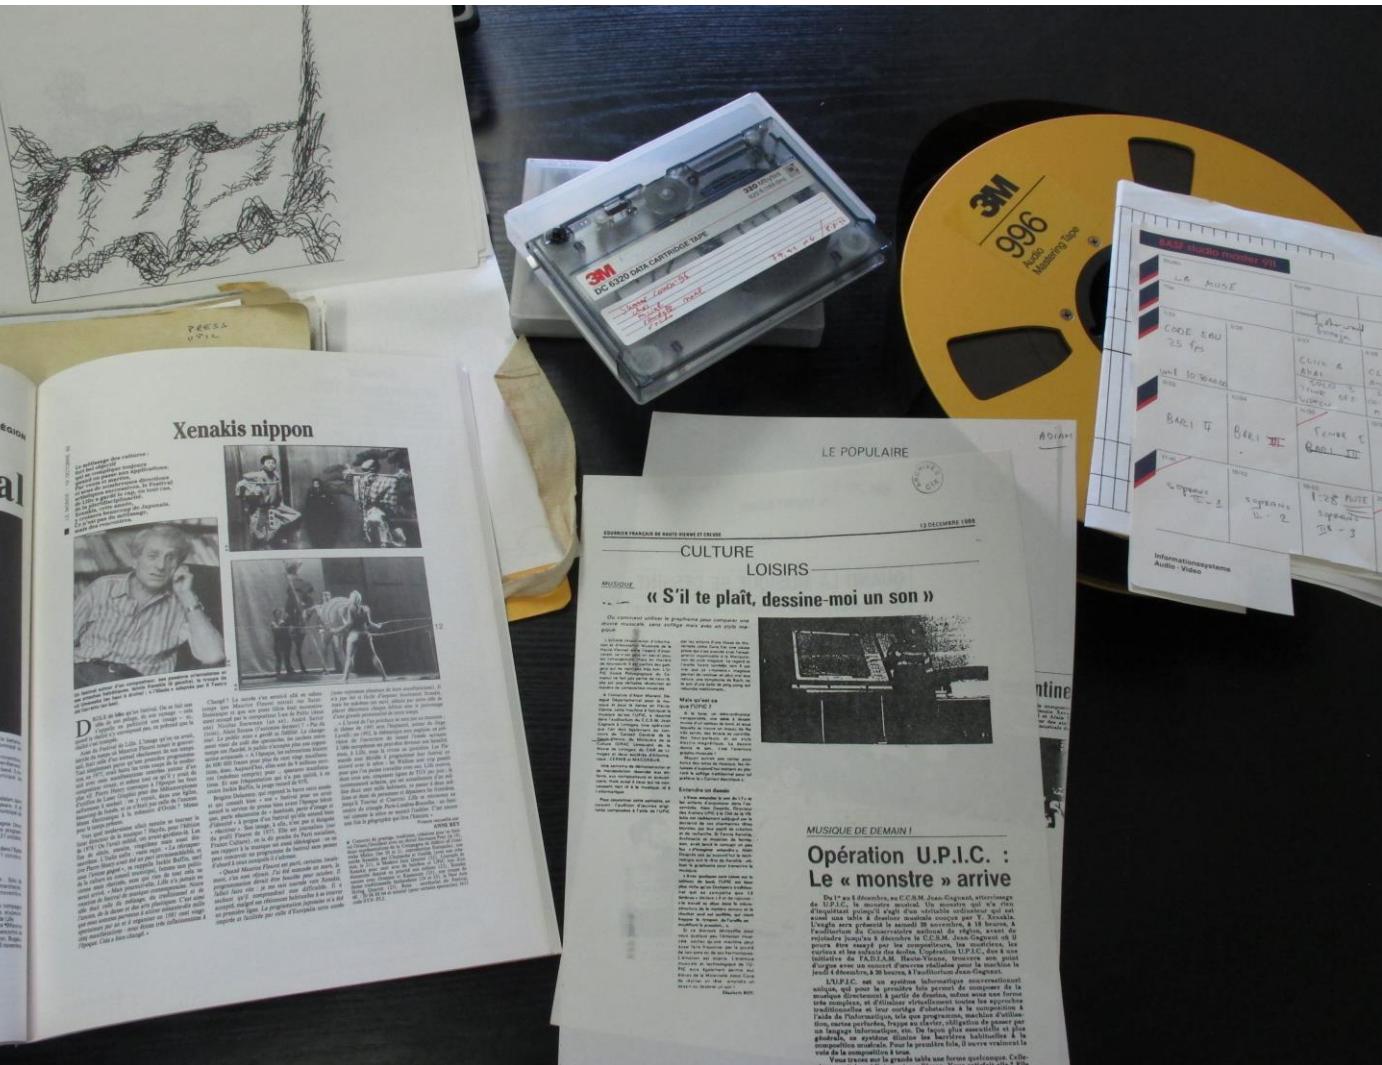

Outdoor concert in front of our office building

## 1. Context

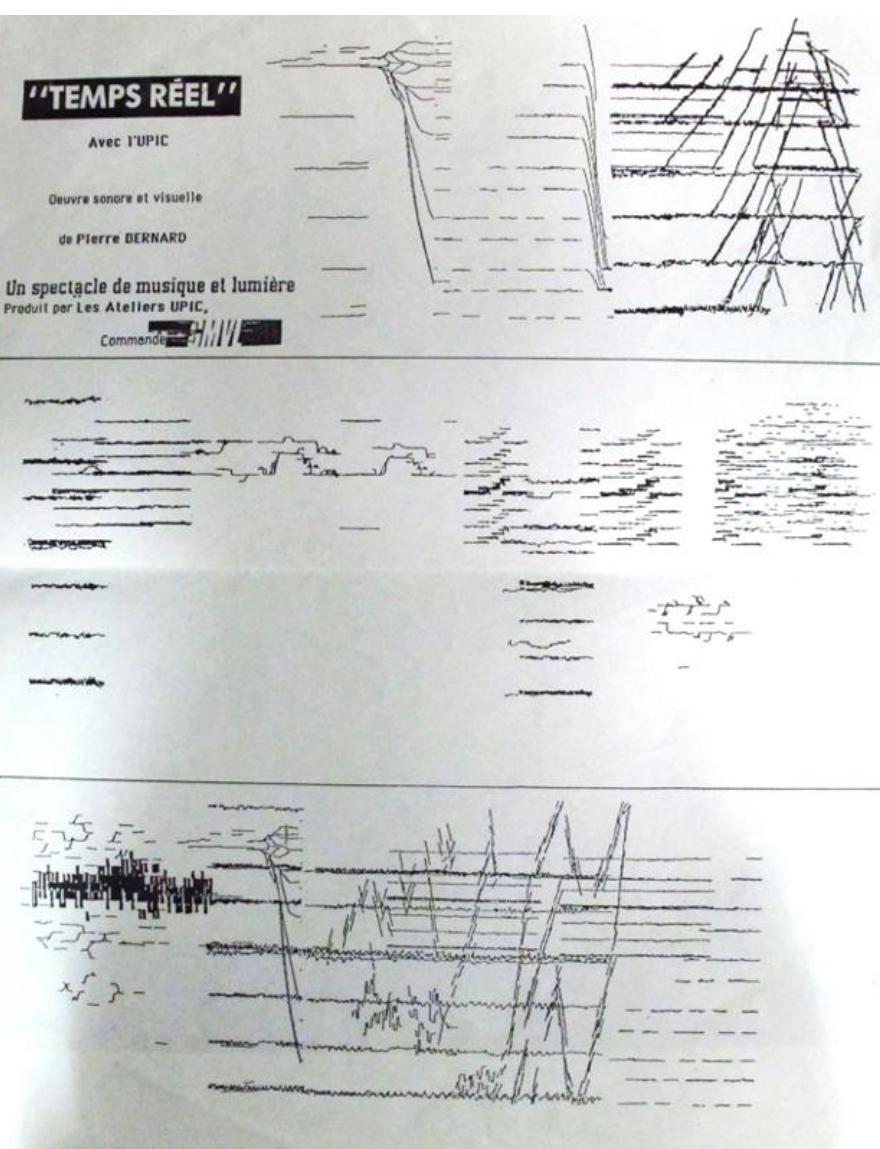

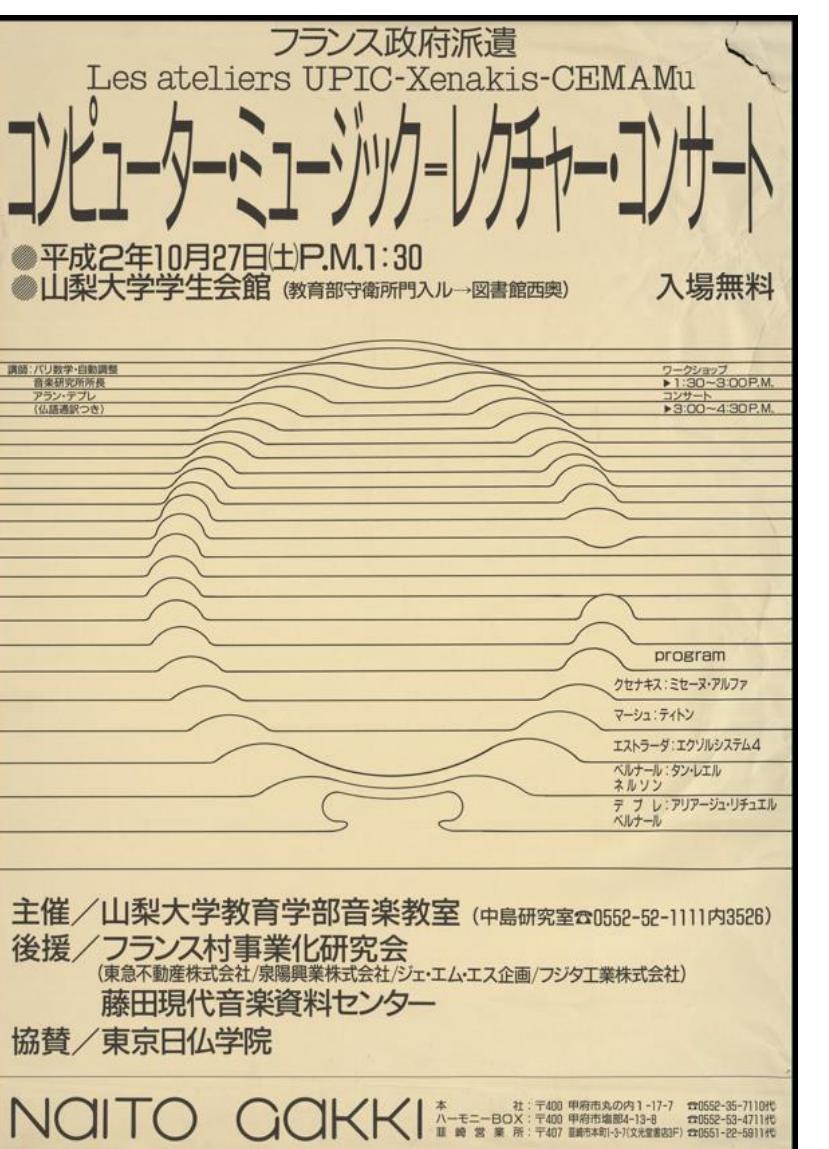

# A small collection that synthesizes the issues related to the management of contemporary music archives

Magnetic Tapes with NO name (?!)

Concert posters

UPIC scores

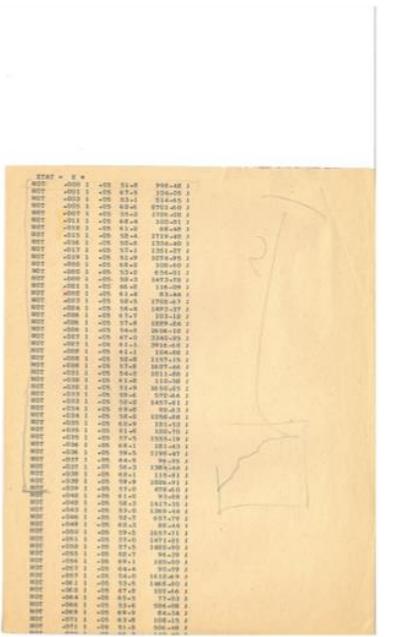

- Heterogeneity of data and multimedia supports: magnetic tapes, DATs, QIC cartridges, burned CDs, etc.
- Variety of printed documents: large posters, scientific literature (grey literature), manuals for the use of devices, paperboards from summer courses around UPIC, press, etc.
- Presence of manuscripts, typescripts on onion skin...
- Unpublished and unidentified music recordings...
- A varied collection of scores: manuscripts, printed copies (published or unpublished), UPIC scores (on fax paper), from calls for composition competitions organized by the association...
- Obsolete software used by composers
- Data trapped in obsolete supports
- All the problematics related to the rights of use of these materials...

STOCHASTIC COMPOSITION  
AND STOCHASTIC TIMBRE:  
*GENDY3* BY IANNIS XENAKIS

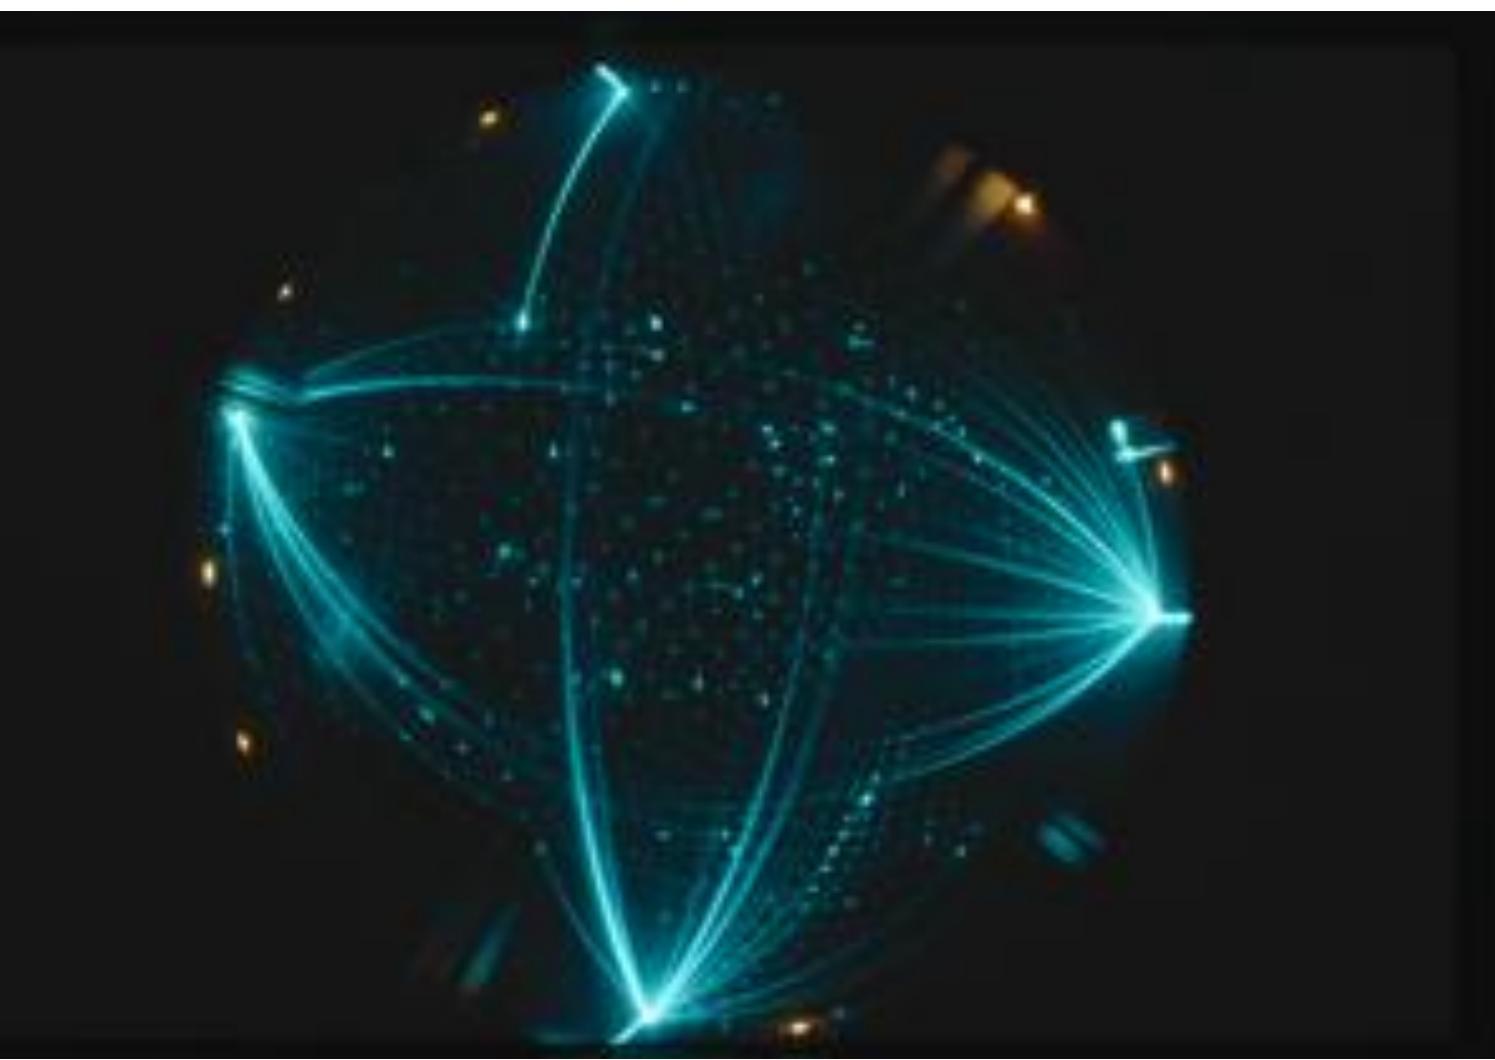

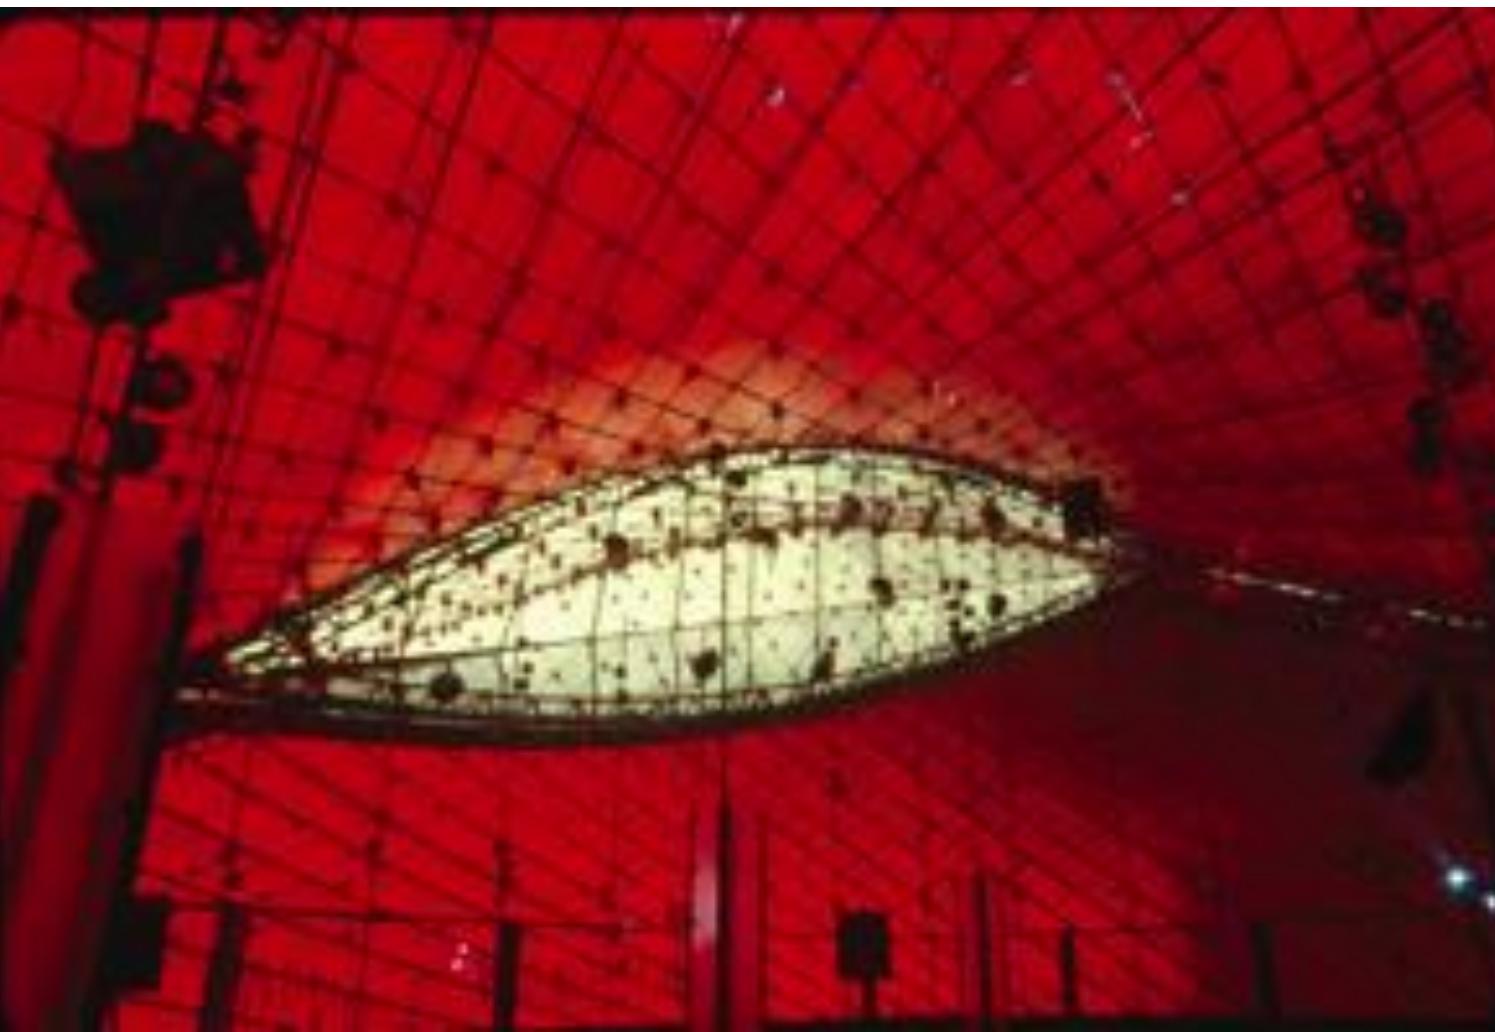

MARIE-HÉLÈNE SERRA

### ABSTRACT

***GENDY3*** BY IANNIS XENAKIS is a stochastic music work entirely produced by a computer program written in 1991 by the composer himself at CEMAMu. The work *GENDY3* is the continuation of the series of stochastic music works that Xenakis inaugurated in 1955 with *Metastasis*. In *GENDY3*, the use of stochastic rules is more deeply systematic, as the composer says in his recent publication (Xenakis 1991b). Not only is the musical structure of *GENDY3* stochastic, but the sound synthesis is also based on a stochastic algorithm that Xenakis invented and called "dynamic stochastic synthesis." In this paper, we describe the whole process of the computation of *GENDY3*, from the low-level sound production to the high-level global architecture. We also take up aspects which

**Le Centre Iannis Xenakis (CIX)** se place dans la continuité des Ateliers UPIC, l'association fondée en 1985 par Iannis Xenakis et Maurice Fleuret, destinée à promouvoir la machine d'aide à la composition par le dessin inventée par Xenakis en 1977 nommée UPIC. Depuis décembre 2010, l'Université de Rouen accueille le CIX en ses murs. Sous les auspices du GRHIS (Groupe de Recherche d'HISToire), le CIX a placé ses archives dans les rayons de la Bibliothèque Universitaire (SCD de Lettres et Sciences Humaines) et branché ses machines UPIC (Unité Polyagogique Informatique du CEMAMU) dans les locaux de la Maison de l'Université (MdU), au pôle de culture scientifique. La MdU accueille la dernière version de cet outil (2001), de nouveau en développement aujourd'hui au sein de l'université (UPIX 2014).

Ce site internet présente les activités du centre : recherche musicale, expositions, ateliers, conférences, concerts, colloques internationaux ([Continuum 2015-16](#)), etc. Ce site héberge également les [archives numérisées](#) du CIX : navigation par collections, recherches multicritères, [expositions virtuelles](#), écoutes d'extraits audios et vidéos, etc.

45 au<sup>22</sup>  
qu'il faudra trouver des représentations compressées, permettant de stocker moins d'éléments lorsqu'une fonction  $f(t)$  varie presque linéairement.

Ces deux grandes fonctions du système sont développées dans les pages suivantes.

#### CREATION, CONSULTATION ET MISE A JOUR D'UNE BANQUE DE SONS

La banque de sons contiendra deux sortes d'entités :

- les bruits : pour lesquels la variation de la pression acoustique en fonction du temps n'est pas périodique ; pour une telle entité, il est par conséquent nécessaire de mémoriser les échantillons correspondant à la totalité de sa durée
- les sons périodiques : pour lesquels la variation de pression acoustique en fonction du temps est périodique ; pour une telle entité, il suffit de mémoriser dans la banque, la suite des échantillons nécessaires pour décrire avec précision une "période".

Nous n'envisagerons dans la suite, que le cas d'une banque de sons sur disque ; il faudra cependant envisager dans un proche avenir des banques de sons sur bandes magnétiques ; le problème de la mise à jour de telles banques, nécessitera alors d'ajouter un dérouleur supplémentaire à l'installation du CEMAMU.

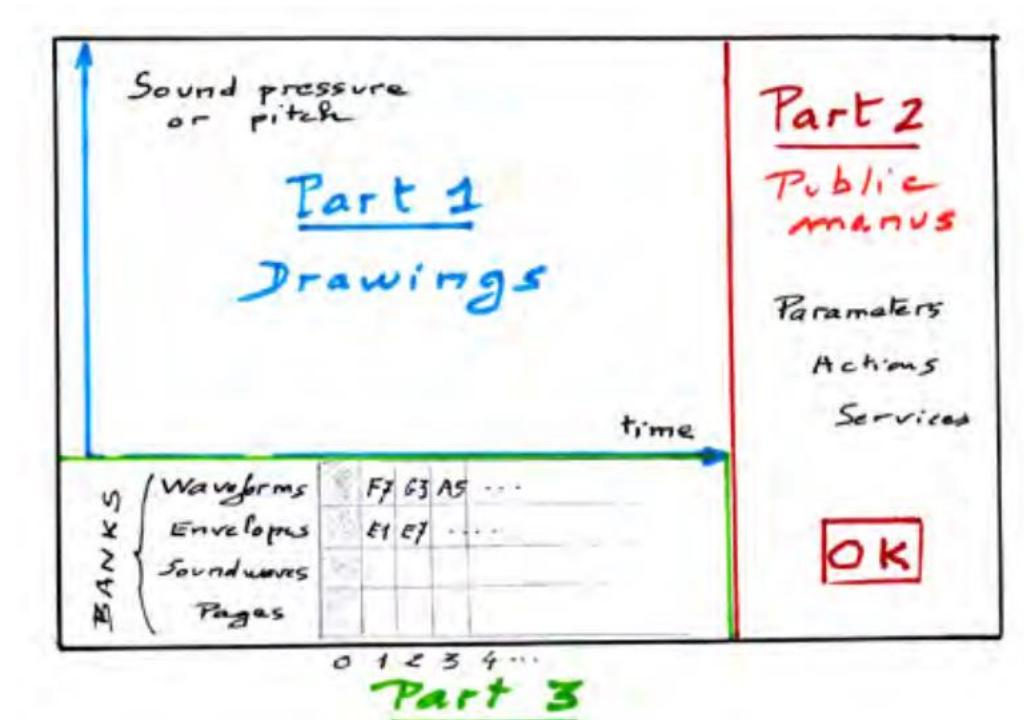

#### CREATION

Pour introduire un son dans sa banque, l'utilisateur disposera des quatre moyens suivants :

- ① Enregistrer un son naturel à l'aide du convertisseur analogique-numérique.
- ② Calculer la suite des échantillons de pression acoustique, à l'aide d'un algorithme programmé (sous-programme générateur).
- ③ Dessiner sur la tablette graphique une courbe représentant la variation de la pression acoustique en fonction du temps.
- ④ Sélectionner une tranche d'un bruit préalablement enregistrée dans la banque, et créer le son périodique admettant cette tranche pour période.

Ultérieurement, on pourra aussi recopier un son appartenant à une banque sur bande magnétique, dans la banque se trouvant sur le disque.

Les quatre moyens actuellement envisagés sont résumé sur un schéma ci-après.

l'interface SOLAR - convertisseur DATEL.  
D'après M. SAINT-JEAN en effet, les boîtier nécessaires à cette réalisation ne tiennent pas sur l'espace de travail de la carte GPI 32.

Coût : 900 FRS H.T.  
Si l'intention de commande est significée rapidement à TELEMECANIQUE, cette livraison pourrait intervenir aussi vers la mi-septembre.

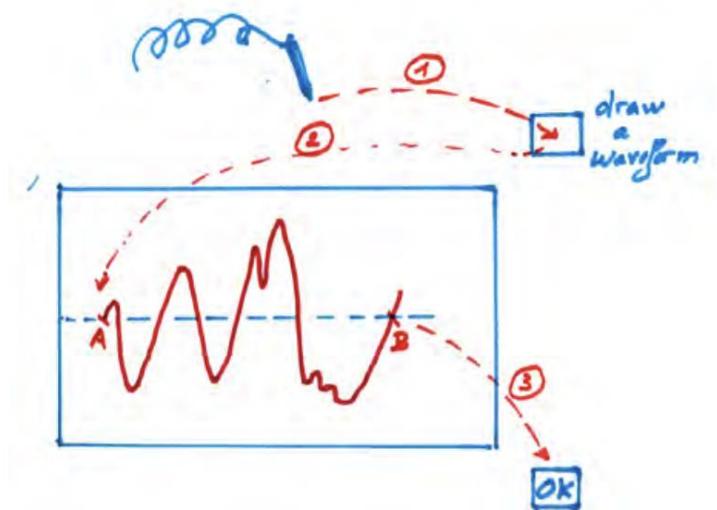

• 1 paire de connecteurs AV2x40 broches pour le GPI 32 (coût : 2x140 FRS H.T.)

#### Fonctionnement et maintenance du matériel déjà livré :

Les pannes observées sur le matériel déjà livré, ont été les suivantes (pour plus de détails, on se reportera au livre de bord de l'installation) :

Télétype : 1 transistor (2N1711543) a du être remplacé.

Pupitre opérateur : le pupitre ne s'allume plus (mauvais contact), la maintenance TELEMECANIQUE a du le remplacer ; à noter que le nouveau pupitre opérateur fourni, n'est pas rigoureusement identique au précédent (il s'agit du modèle le plus récent à la date du 19 juillet 76).

# Meta-Xenakis a transcontinental celebration of Iannis Xenakis (1922-2001)

## Meta – Xenakis Global Symposium

Faithful to the Meta – Xenakis team's ambition to celebrate not only Iannis Xenakis and his work but also his artistic and philosophical legacy, our Symposium will be a global marathon over 41 hours, spanning three continents and five countries. (Forever an athlete, Xenakis taught us all, through his example, the value of surpassing oneself!) Each country will host an 8-hour hybrid, live-streamed session (with a 1-hour intermission between sessions 2 and 3). Musicians, scholars, artists, architects, mathematicians, and philosophers from all over the world are invited to participate in presenting original papers, workshops, round-table discussions and/or lecture-recitals.

## Marathon Symposium schedule

**France: September 30, 2022, 8am–4pm (UTC 06:00–14:00)**

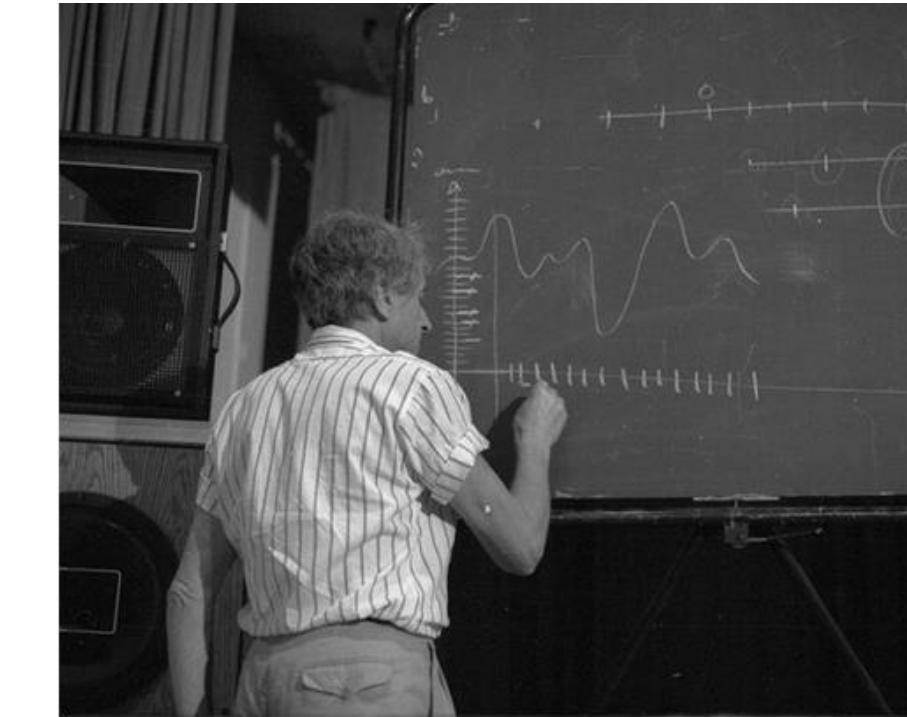

**New York: September 30, 2022, 10am–6pm (UTC 14:00–22:00)**

**1-hour intermission**

**Tokyo: October 1, 2022, 8am–4pm (UTC 23:00 previous day–07:00)**

**Athens: October 1, 2022, 10am–6pm (UTC 07:00–15:00)**

**México: October 1, 2022, 10am–6pm (UTC 15:00–23:00)**

# Contract for rights owners

## Worldwide, royalty-free, non-exclusive assignment of license for the website of the CENTRE IANNIS XENAKIS

### Please

1. date and sign the present document as well as the annex preceded by the hand written sentence "read and approved without reserve";
2. initial each page on the left side of each page of the entire document.

Between the Centre Iannis Xenakis, a not-for-profit French association under the regime of the law from 1901, Siret number 789 078 961 00016, domiciled at UFR Lettres et Sciences humaines, Université de Rouen, rue Lavoisier, F-76821 Mont-Saint-Aignan, heretofore referred to as CIX

and

the author or her/his legal heir of the works listed in the annex of the present contract, heretofore referred to as the legal heir or original author according to the definition given in the Creative Commons License (see: (<http://creativecommons.org/licenses/by/3.0/legalcode>)

it is agreed the following:

### Article 1

The original author, legal heir:

- name :
- address :
- email :
- telephone :

authorizes the Centre Iannis Xenakis (CIX), French association under the regime of the law from 1901, Siret number 789 078 961 00016, domiciled at UFR Lettres et Sciences humaines, Université de Rouen, rue Lavoisier, F-76821 Mont-Saint-Aignan, to reproduce and represent, solely for the type of exploitation defined below, the work(s) listed on the attached annex for which the author or the legal heir owns the royalties as defined by the laws governing intellectual property.

The annex listing the work(s) is an integral part of the present assignment.

### Article 2

#### - Means or type of exploitation

- Computer database of the Digitized Archives of the Centre Iannis Xenakis, comprising the Archives of the Ateliers UPIC, the CCMIX (Centre de création musicale Iannis Xenakis) and the CIX son the website of the Centre Iannis Xenakis, available for consultation at: <http://www.centre-iannis-xenakis.org>.
- The present assignment will be extended to the search engines of the Portal de musique contemporaine (Contemporary music portal) and the European database Europeana, available for consultation at the links listed here:
  - <http://www.centre-iannis-xenakis.org>
  - <http://www.musiquecontemporaine.fr>
  - <http://www.europeana.eu>

- Seeing that this project adheres to the principles of Digital Humanities and Open Archives (OIA), the data and metadata included in our own digital archives could be harvested via the OAI-PMH (Open Archives Initiative – Protocol for Metadata Harvesting)<sup>1</sup> protocol by other institutions, always with the goal of increasing the visibility of the content of our digitized collections on the internet and to improve and multiple its accessibility .

#### - Type of documents (general conditions)

- For original documents on paper (program notes, posters, scores, correspondence, sketches, manuscripts) or photographs: full reproduction, at either low resolution (72 dpi) or medium resolution (comprised between 640x480 and 800x600 pixels); a higher resolution up to 1600x1200 pixels (but always at 72 dpi) is also acceptable but exclusively for engravings, printed material and manuscripts.
- For sound and video documents (musical works, recorded concert performances, sound objects), the excerpts will be made available in the MP3 standard, with a maximum duration of three minutes or 25% of the total duration of any given work, whichever is shorter.
- It is understood that, on the one hand, the quality of the image, or sound or video will not enable any type of editorial or commercial exploitation.
- It is understood, on the other hand, that these excerpts are thus made available online entirely free of charge and royalties.

#### - Conditions of presentation

- The name of the artist as well as the copyright mention will be specified in each work's individual listing, as long as the creator of the work has been duly identified. If the name of the creator is not known, a technical device such as crowd-sourcing / online commentaries will be in place to enable users to participate in identifying such a temporarily anonymous work.
- The present assignment's only object of contract is to authorize online access of excerpts of the works listed on the attached annex.

### Article 3

- a) The original author or legal heir accepts to render accessible to the Centre Iannis Xenakis a copy of the work(s) as described in Article 2, paragraph 2 according to the terms of the creative commons license n° 3: Attribution-NonCommercial-NoDerivs. 

The original author or legal heir authorizes the Centre Iannis Xenakis to share the work(s) listed in the attached annex according to the following conditions:

- Exclusive of commercial or editorial use: the original author or legal heir authorizes the Centre Iannis Xenakis to reproduce and disseminate the work(s) listed in the attached annex for any use other than commercial or editorial, unless the CIX previously obtains an authorization.
- No modifications: the CIX is not authorized to distribute or disseminate any modification of the work(s).

- b) However, the original author or legal heir can choose to render accessible to the Centre Iannis Xenakis a copy of the work(s) as described in Article 2, paragraph 2 according to the terms of the creative commons license n° 6, "Attribution-ShareAlike," which is likely to facilitate its/their access among certain organizations, in particular private American universities such as MIT, Harvard, Columbia, Princeton, Yale, etc. 

- Attribution and share alike in the same conditions: the original author or legal heir authorizes any use of excerpt of (?) the original work(s) (including commercial purposes) as well as the

creation of derivative works, as long as it/they are distributed under an identical license as that of the original work(s).

The original author or legal heir specifies her/his choice by signing the present contract of assignment.

### Article 4

Results of the present assignment:

- The work(s) is/are protected by the laws governing literary or artistic property as well as any other applicable laws. Any/all use of the work(s) other than those authorized in the chosen creative commons license is reserved.
- The exercise of any rights on the work(s) rendered accessible to the CIX implies the acceptance of the terms of the chosen license due to the contractual nature of each license.

The original author or legal heir and the CIX confirm having read the provisions relatives to creative commons licenses, as they appear on the website <http://creativecommons.org> and accept them without reserve. A copy of the licenses can be addressed by email by the CIX to the original author or legal heir upon request.

The original author or legal heir chooses (please check the box that corresponds to your choice):

to render accessible a copy of the work(s) listed in the attached annex according to the creative commons license n° 3

to render accessible a copy of the work(s) listed in the attached annex according to the creative commons license n° 6

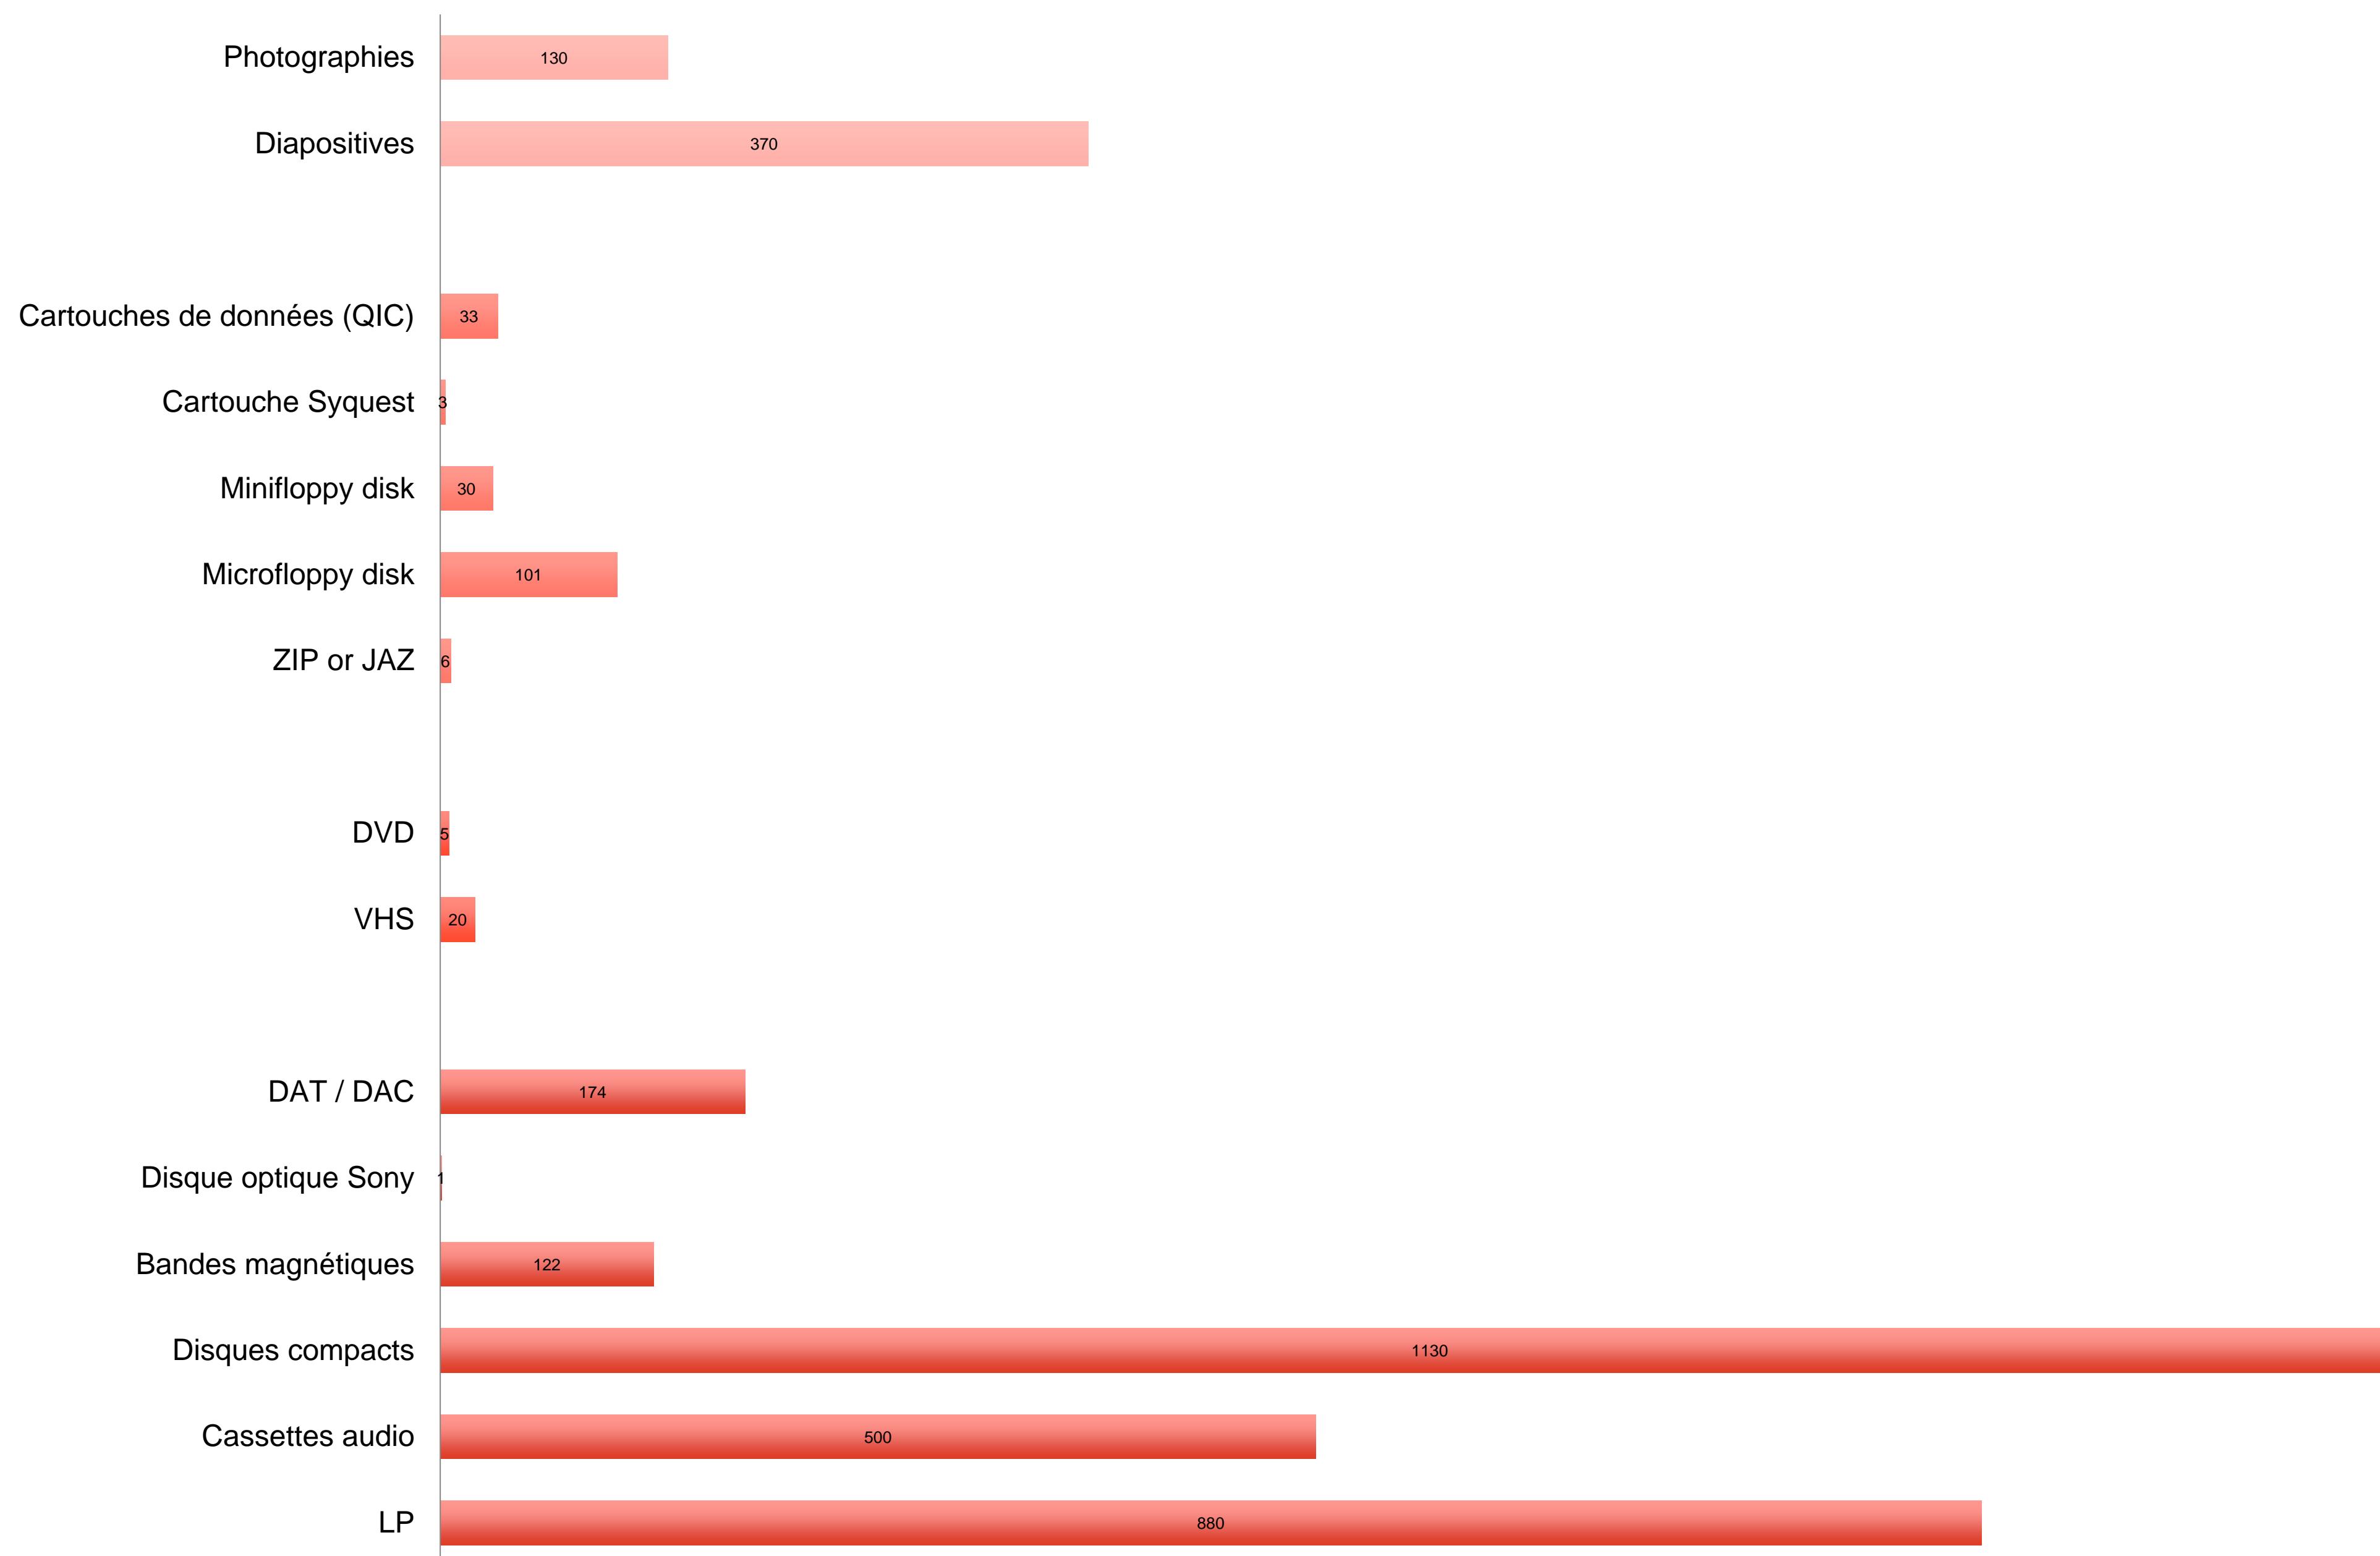

Original author, Legal heir

for the Centre Iannis Xenakis

If the owner of the original rights is not the author her/himself but a legal heir (next of kin, assignee, or other), she/he must provide proof of this status by an authentic document, meaning, in France, an attestation signed by a ministerial officer (notary or bailiff) or, in other countries, an attestation signed by a legal authority certifying
