

Information Subject Gateway Musica (MUS)

Václav Kapsa National Library of the Czech Republic

IAML Annual Conference - Naples 2008 22. 7. 2008

Subject

- internet-based service
- integrated access to selected resources
 - databases
 - digital libraries and repositories
 - web resources
 - catalogues
 - traditional documents in libraries

- Background and definition of the MUS project
 - coordinated building of subject gateways, technical solution
 - focus and goals of MUS
 - limited starting conditions
- MUS Gateway today
 - structure and services
 - problems and solutions
 - subject-specific features

- Background and definition of the MUS project
 - coordinated building of subject gateways, technical solution
 - focus and goals of MUS
 - limited starting conditions
- MUS Gateway today
 - structure and services
 - problems and solutions
 - subject-specific features
- Plans
 - near future development
 - sustainability

Background of the MUS Project

Background of the MUS Project

- "Coordinated building of subject gateways" (2004–2008)
 - joint project of National Library of the Czech Republic and Charles University in Prague
 - standards for Czech subject gateways
 - several subject gateways KIV, MUS, ART, TECH
- Unified Information Gateway (UIG) and subject gateways
 - UIG = Czech national gateway for research information
 - similar structure and tools = familiar environment for

Definition of MUS

Definition of MUS

- focus and preferences
 - music and musicology
 - important online resources for research
 - resources related to music in/from Czech lands
- target groups
 - musicologists, students and teachers of music, music librarians etc.
 - Czech users and those interested in Czech music
 - sufficient for professionals and orientating for beginners

Limited starting conditions

- music documents in library catalogues
 - none/shallow retrospective (including National Library)
- inaccessibility of important resources
 - Czech musicological bibliography only in print
 - technical problems in libraries, metasearch unavailable
- licensed sources unavailable in Czech institutions

MUS Search – parallel searching of databases and catalogues

MUS Search – parallel searching of databases and catalogues

- MUS Search parallel searching of databases and catalogues
- added services linking to full texts, holding information etc.

- MUS Search parallel searching of databases and catalogues
- added services linking to full texts, holding information etc.

- MUS Search parallel searching of databases and catalogues
- added services linking to full texts, holding information etc.
- collection of web links selected with respect to the focus of the MUS, which you can not only search, but also browse
